New York Construction Announces Best of 2010 Winners
~New Jersey's New Meadowlands Stadium Takes Top Prize~

September 14, 2010, New York, N.Y.– ***New York Construction*** magazine is pleased to announce the winners of its Best of 2010 awards competition. The annual competition recognizes construction excellence from across the region.

An independent jury of industry experts judged nearly 180 nominated projects last week and deemed 31 of them as award winners. Eligible projects were located in New York, New Jersey and New England and were substantially completed in the past year.

The winners, including the overall Project of the Year, will be featured in the December issue of ***New York Construction*** and honored at an awards breakfast on Thursday, December 16. The event will be held from 8 a.m. until 11 a.m. at the Marriot Marquis in Manhattan.

The jury awarded projects based on entry criteria including project management and client service, safety, design and functionality.

The entries were sorted by project type. Each category can have one “Project of the Year” award winner and one or more “Award of Merit.” The overall “Project of the Year” is determined by the jury to be the best of all entries. This year’s Project of the year was given to the team that developed, designed and built *New Meadowlands Stadium* in East Rutherford, N.J.

The winners, listed on the following pages, will be entered in the National Best of 2010 competition and judged against winning entries from other regions. Those winners will then be profiled in *Engineering News-Record, Constructor* as well as the 11 Regional Publications later in 2011.

The Winners (continued on next page)
