HOW THE SURVEY WAS CONDUCTED

New York Construction's Top Specialty Contractor rankings aim to identify the specialty contractors and subcontractors that are most active in the New York, New Jersey, and Connecticut markets. We sent survey forms to subscribers, members of contracting associations, and companies across the industry. We made follow-up calls to encourage greater participation. We then compiled all information reported by the responding firms on the official survey form and tabulated the data. From those results, we are highlighting the companies in the region with the highest 2007 billing totals in each category. The charts of data by specialty areas reflect combined New York, New Jersey, and Connecticut totals. For more information on our process or to participate in future surveys, please contact jack_buehrer@mcgraw-hill.com.
